

DO EXCITING WORK FOR PREMIER CLIENTS:

You'll get the opportunity to work with clients like Microsoft, Kotak Group, Meru Cabs, CRY, CtrlS, Network 18 and many others. Do work you can be proud of. And instead of being cogs in a corporate machine you don't fully comprehend, see your work as part of an integrated value creation for clients you know and interact with closely.

DEVELOP 21ST CENTURY SKILLS

You will work on projects across multiple screens (Mobile Apps, Web Apps, Desktop Widgets, ATMs, Kiosks and others) and in diverse skill-sets (design, content, technology, management and communication) related to interaction design. While many of the things we do are established practices in business, many others are pioneering initiatives in emerging disciplines like Software Usability Engineering and Interface Design for Wearable devices.

DISCOVER A FRAMEWORK OF LIFE THAT YOU'VE ALWAYS SOUGHT

Goa enables a lifestyle that cannot be achieved even at twice the salary in major metros. At our company, you have the possibility of expanding your life in all directions participating in sport, catching up on hobbies, learning new things. Informal talks and lectures, learning through workshops, guest lectures, field trips and other activities...this is all part of the regular cycle of life at our company.

FIND MENTORS WHO HELP YOU GROW

Work with the best people across fields-technology, design, content and communication and learn from them. And besides learning, find the emotional fulfillment that comes from being with wonderful human beings who you can laugh and share with.

EXPAND YOUR HORIZONS

Get to work with people with various cultural backgrounds. ScreenRoot and our group of companies has had people from every part of India and also from countries like Canada, Germany, Russia, Nigeria, Columbia, Denmark and the United States. At any given time, people here collectively speak more than 10 languages.

HAVE THE COMFORT OF TRUTH

Be secure in the comfort that the organization's ethical standards are aligned with their own-they will never, ever have to do anything that they feel awkward or humiliated about.

GROW THROUGH EXPLORATION

An opportunity to explore new areas. Find out if you are proficient in content even though your core competence and academic training may have been design. More ambitious? See whether you have an inclination for Project Management and the ability to lead teams. Understand your interests, capabilities and limitations and work your way towards getting where you want to be. The freedom to experiment, explore and do what makes sense to you.
